PRECISION PUNCH

Defining Excellence

Keeping up with the times...

When R.V. Peterson founded Precision Gage Corporation in 1965, it was an off-shoot of a family-owned industrial supply company. R.V. had the foresight and initiative to respond to the demand for timely delivery of high-precision punches. But he could not have imagined that forty years later, his company, now known as Precision Punch Corporation, would emerge as the premier manufacturer of standard and customized punches, dies, perforators and hardened, precision-ground cylindrical parts.

Over the years, R.V. steadily built his punch business with his son, R.L. (Bob), at his side and extended the company offerings by purchasing raw bar stock to produce and sell blanks that were manufactured by local shops. As times changed and the demand for dependability, quality and service grew, so did the company.

In 1975, Precision Gage internalized all of its manufacturing operations, and the company continued to expand its offerings. At the same time, both R.V. and Bob Peterson were devoting all their energies to manufacturing a full line of standard products and high-precision components to customer specifications for a wide variety of applications. In 1980, the company changed its name to Precision Punch Corporation to more accurately reflect its product line.

In 1985 Bob Peterson was appointed president. His extensive experience and knowledge translates into hands-on leadership. Everything must meet uncompromising standards, from the selection of the very best raw materials to the delivery of the highest quality product, time after time. In fact, no order leaves the plant unless it has Bob's personal stamp of approval.

In the years ahead, although products will continue to change with the times, one thing at *Precision Punch* will always remain constant: *our steadfast commitment to quality, versatility, and accountability.*

At Precision Punch, our Mission is not just about us... it's about how we serve you.

Living up to our commitment...

Our Mission is clear: Every day, for every customer, for every project, we dedicate the resources and energy necessary to provide unsurpassed quality products and service.

Our catalog lists our extensive line of ground perforators, close space punches, punch blanks, stepped punches, die buttons, core pins, nitrided ejector pins, and forged pins. Our huge stock of standard products is available for immediate delivery and usually ships within 24 hours. For your convenience we also offer on-line tracking of your shipment.

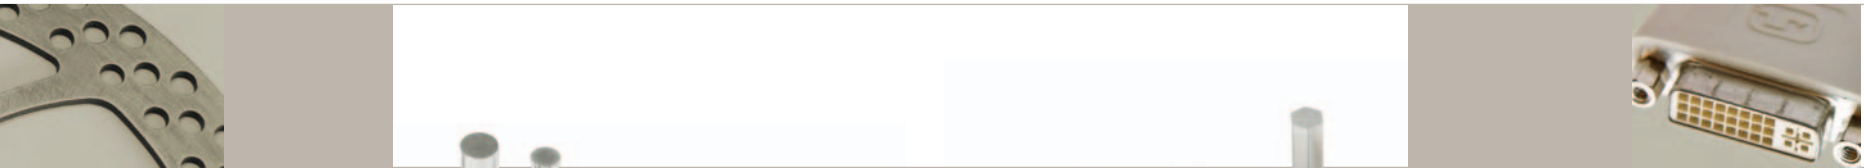

Our custom capabilities are unmatched. Our team of process engineers will work with you from start to finish. They will evaluate your specifications and design a process using state of the art production equipment operated by highly skilled, experienced operators to consistently meet your requirements. You can count on us to meet your specifications and exceed your expectations.

*"People have said that I have a 'passion for perfection.'
There's no better way I know to further our commitment to our customers than by providing the highest quality products and standing behind every one of them.
I never have, and never will, settle for anything less."*

R.L. (Bob) Peterson, Owner/CEO

From the tiniest one-off component to the most demanding high-volume requirements, precision and perfection can be found in each piece we manufacture. From the raw steel to the finished product, we never settle for anything less than best. That's why our customers rely on us for consistency and quality... time and time again.

uncompromised quality | outstanding service

| PERFORATORS & PINS |

Our reputation for reliability and consistency is built on experience and expertise. Ever since we began manufacturing perforators and pins more than 40 years ago, Precision Punch has stood behind every single product. Our dedication to service and quality can be seen in every piece we manufacture.

| PUNCHES & DIES |

Our engineers are committed to providing superior products and service to our customers. With their expertise, we offer a precision line of punches and dies, in more standard materials than any other North American manufacturer. No wonder that manufacturing professionals turn to Precision Punch to meet their most challenging needs.

| MINIATURES |

Our miniature ground components consistently exceed expectations while meeting the most rigorous requirements for precision-critical industries such as pharmaceutical, medical, micro-stamping, electronics and plastic molding.

| MOLD & MEDICAL COMPONENTS |

Tough precision applications demand extraordinary precision tools. Not only have we set the industry standard, but we continue to raise the bar on performance for mold and medical components — from stock catalog items to the most sophisticated core pins and custom medical and pharmaceutical components.

| BLANKS |

A blank is not simply a blank when it's produced by Precision Punch. Industries from medical to ammunitions to metal forming trust our wide selection of tool steel and hardenable grades of stainless steel blanks for outstanding performance in every application.

| CUSTOM |

Every product we manufacture is built from the industry's most extensive line-up of in-stock materials. Our hardened ground parts meet the most demanding specifications for the most challenging applications. Our capabilities include diameters ranging from .004 to 1.25 inches while holding tolerances down to .0001 inches and surface finishes down to 4 micro (Ra or RMS).

Our Mission Statement

Customer Satisfaction:
We will anticipate, understand, and excel at meeting the needs of our customers.

Benchmarking:
We will continue to measure meaningful aspects of performance and benchmark ourselves against our customers' expectations and the industry's best.

Management Leadership:
We will create and maintain a shared vision, constancy of purpose and supportive environment that includes appropriate rewards and recognition.

Continuous Improvement:
We will continuously improve all aspects of our manufacturing and service operations, and take advantage of the latest technology, systems, and training to enhance our performance.

Partnering:
We will offer on-going partnerships with our customers to maintain a close and intimate association allowing us to provide optimum value and pricing along with reliable, timely deliveries.

Empowerment and Ownership:
This is our way of life. We will create and maintain a culture where people have the knowledge, skills and desire to act, and take responsibility for their contribution(s) to the success of the company.
