

The world's best molds are made with the world's best components.

Building excellence into every piece.

You don't need to search the globe to find out what goes into making outstanding molds. Every Precision Punch & Tooling mold pin, core pin and ejector pin is made in the U.S.A. and meets the most rigorous certification standards.

Our experienced team of engineers and machinists will work with you every step of the way, from design to development to delivery. And for fast turn-around, our in-stock selection of superior components is available in a full range of materials, sizes, shapes, and finishes.

So for world-wide performance, rely on the world's best mold component company... Precision Punch & Tooling.

- Diameters ranging from .004" to 1.25"
- Lengths up to 12"
- Holding tolerances down to .0001"
- Surface finishes down to 2 micro (Ra or RMS)
- Largest inventory of high grade tool steels and stainless steels

High Quality Products Made in the U.S.A.

Precision Punch & Tooling Corporation is a premier manufacturer of punches, dies, perforators, and precision ground cylindrical parts. In addition to a full line of standard products, Precision Punch & Tooling manufactures high-precision components to customer specifications.

Every day, for every client, for every project, we dedicate the resources and energy necessary to provide unsurpassed quality of products and service.

We build perfection in every injection molding part we manufacture; we never settle for anything less than best.

Our custom capabilities are unmatched. Our team of process engineers will work with you from start to finish. They will evaluate your specifications and design a process using state-of-the-art equipment operated by highly skilled, experienced operators to consistently fulfill your requirements. You can count on us to meet your specifications and exceed your expectations.

Made in the U.S.A.

With over 44,000 square feet of manufacturing space in our facility in Berlin, CT, we combine the latest in state-of-the-art equipment with over 50 years of professional manufacturing experience. This results in products that consistently meet the most precise requirements and stand up to the most rigorous demands.

Partnering

We are committed to developing close and long-term relationships with our customers. These ongoing partnerships enable us to provide optimum value and pricing along with reliable, timely deliveries.

ISO 9001 Certified/ISO 13485 Certified

ISO 9001 Certification attests to our meeting the international criteria for quality management principles, including a strong customer focus, the motivation and implication of top management, the process approach, and continual improvement. ISO 13485 Certification attests to our meeting the requirements for medical devices and related services that consistently meet customer requirements and regulatory requirements applicable to medical devices and related services.
